BOARD COMMITTEE REPORTS

Report of the Finance Committee of the Kauai County Board of Water Supply

With the absence of Chair Dill, Manager Craddick reported the Finance Committee discussions with the Board.

It was the Finance committee’s recommendation to move forward with the rate scenario 10B as proposed by our consultant, R.W. Beck and send the rate proposal to the small business review group.

The rates were determined by allocating Cost of Service using industry standard methods among the general user category with the exception of the agricultural category, which the committee recommends be subsidized at about half the general rates consistent with current practice. This subsidy will remain at about $300,000 per year for the current year and the total dollar amount increasing as the agricultural rates increase going forward. We further recommend that the basis for this subsidy be in a Board policy statement form to memorialize what is being done for future use.

The Finance Committee has deliberated over many months on the proposed water rates. While this was going on the Manager, with the assistance of our public relations consultant and Public Relations staff, has held numerous rate proposal meetings with the public as well as informing Council members and the Administration. Other members of the Board have attended some of those meetings.

We have reviewed ten different rate proposals that keep the Board’s finances in sufficient standing to qualify for AA or better bond rating should continued borrowing be needed to finance projects going forward. It does not appear that operating costs spiraling upwards are driving the rates. We have also considered rate coverage that would allow interfund borrowing
should the FRC not initially raise sufficient funds to pay the debt service expected from expansion related projects. The primary reason for the rate increase is to allow a move toward cash financing recurring replacement projects instead of using borrowed funds which carries related interest expense. There was also discussion of the current state of the economy and from comparisons with other utilities it can be shown that had the Department been raising the rates on a continuous basis ten years ago the Department may not be facing the increases being proposed today. Comparing the Department with other utilities there appears to be a national trend of water rates increasing at a cumulative percentage more than two times the cumulative percentage increase of the consumer price index since 1998. The department percentage increase in water rates, in 2010, just equaled the cumulative percentage consumer price index since 1998.

The committee was not unanimous in its recommendation.

The fundamental opinion difference appears to be whether the basis on which the rates are determined should be based on the latest financial information. The financial information does change month to month as the latest financials becomes available. Those financials do not appear to be changing in a negative direction. Using the latest financials there appears to be sufficient cash on hand to delay half the rates for one year. However your committee is satisfied that there are a number of additional projects which could be funded if additional funds were available. We are also of the understanding that the Board can delay at any time any of the proposed increases without jeopardizing the whole rate proposal if staff should be unable to get the projects bid and going according to the proposed project cost schedule upon which the rates are based.

Mr. Nishimura moved to accept the Report of the Finance Committee, seconded by Mr. Nakaya; by a unanimous vote, motion was carried.

OLD BUSINESS

Re: Manager’s Report No. 11-24 – Committee Discussion and Possible Action on Part III
Rule Amendments – Establishing Standards for Subdivision Water Systems

Mr. Nishimura moved to defer Manager’s Report No. 11-24 – Committee Discussion and Possible Action on Part III Rule Amendments – Establishing Standards for Subdivision Water Systems to the November 23, 2011 Regular Board Meeting, seconded by Mr. Nakaya; by a unanimous vote, motion was carried.

Re: Manager’s Report No. 11-28 – Request Board Approval of Facilities Reserve Charge Changes
i. Rule changes to implement FRC in Part Four
ii. Rule changes to implement Process Changes

Mr. Nishimura moved to defer Manager’s Report No. 11-28 – Request Board Approval of Facilities Reserve Charge Changes items i and ii to the October 27, 2011 Regular Board Meeting, seconded by Mr. Kaneshiro; by a unanimous vote; motion was carried.

DISCUSSION:
Manager Craddick explained that the rate increase did not correlate with the elimination of the leak rebates. SAIC/R. W. Beck stated that it would be $6,000 to do a change order to redo the rates implementing the elimination of the leak rebates. There is still $41,000 left in the budget to get this change order done.

Due to the importance of this item and three members not present for this meeting, Mr. Nishimura moved that this Manager’s Report 11-49 be deferred to the October 27, 2011 Regular Board Meeting.
Manager Craddick emphasized that the relevance of this Water Rate Study is important to finalize because their Project Manager, Anne Hajnosz, is leaving R.W. Beck in a few weeks. Manager Craddick requested that the Board give the Water Department a sense of direction to go forward in gathering the results from Beck as advised with the Finance Committee reportings.

Mr. Nishimura moved to withdraw his first motion to defer and moved to defer formal action on this item and to authorize the DOW to proceed with a change order with R.W. Beck not to exceed $6,000 to rework the Rate Study correlating Option 10B, incorporating the elimination of the leak rebates and the current approved budget, seconded by Mr. Nakaya.

Due to the impacts of our current budget incorporating with the leak rebate and only have it based on Option 10B, there is a 44% rate increase over the next 5 years whereas Option 9B was a 34% rate increase. Mr. Nakaya requested that although the Finance Committee requested just a change order for Option 10B, the Board should request R.W. Beck to provide the DOW and the Board the Option 9B and 10B in correlation to the current approved budget and the elimination of leak rebates. This will give the Board and the Department the opportunity to provide the public with comparisons.

Mr. Nishimura moved to withdraw his previous motion and Mr. Nakaya moved to withdraw his seconded motion.

Mr. Nishimura moved to defer Manager’s Report No. 11-49 – R.W. Beck Report on Financial Planning Analysis and Water Rate Study and authorize the DOW to carry out a change order with R.W. Beck/SAIC provided it is within the current approved budget for the Water Rate Study incorporating Option 9B and Option 10B in correlation with the elimination of the leak rebates, seconded by Mr. Nakaya; by a unanimous vote, motion was carried.

Manager Craddick stated that this item has been resolved. Deputy Eddy and Mr. Doi went out to do a second hydrant test and were able to get 2,000 gallons per minute standard on the two hydrants and the pressure went down to 52 or 53 pounds. The line that was thought to be cut off was not.

Mr. Nishimura moved to receive Manager’s Report No 12-1 – Response to Attorney Lorna Nishimitu - Belles Graham Proudfoot Wilson & Chun, LLP correspondence in reference to Subdivision No. S-2009-12 the Koloa Early School and Honpa Hongwanji Mission of Hawaii, seconded by Mr. Kaneshiro; by a unanimous vote, motion was carried.

Re: Manager’s Report No. 12 – 17 – Second Change order for Job 05-02, Drill and Test Hanalei Well #2 & Job 05-02, Drill and Test Wainiha Well #4. (THE MANAGER IS REQUESTING WITHDRAWAL OF THIS ITEM)
There was no discussion on this item as this item was withdrawn.

Mr. Nishimura moved to defer Suggestions for Capital Improvement Projects (CIP) for 2012 Legislative Session to the November 23, 2011 Regular Meeting and requested for the DOW and Manager to consult with the Administration so that the DOW's priorities are in sync, seconded by Mr. Nakaya; by a unanimous vote, motion was carried.

Re: Manager’s Report No. 12 – 24 - Emergency Reserve Fund Policy

DISCUSSION:
Manager Craddick explained that during the budget process for FY 12, the Board stated setting aside funds for Emergencies. There was a restriction put on the expenditure of funds from the emergency fund until such time as a policy position was taken by the Board. The policy covers all the current labor has to be spent before going into this fund and defines an emergency as the need to protect public health and safety and DOW assets from otherwise unbudgeted events.

Mr. Nishimura moved to refer Manager’s Report No. 12 – 24 - Emergency Reserve Fund Policy to the Committee of the Whole, seconded by Mr. Nakaya; by a unanimous vote; motion was carried.

Mr. Nishimura moved to approve Manager’s Report No. 12 – 25 - Request Board Approval of Wailua Houselots Main Replacement – Job No. 02-15, Wailua, Kauai, Hawaii, Contract No. 403 Time Extension Request for R.M. Towill, seconded by Mr. Kaneshiro; by a unanimous vote; motion was carried.

DISCUSSION:
Manager Craddick requested to approve $20,000 funding from the BAB for approximately 19 feet of concrete jacketed water line under a storm drain at the Puhi Road/Kaumualii Highway intersection area. In addition, Board approval is requested for an additional $50,000 for contingency.

Mr. Nakaya moved to approve Manager’s Report No. 12 – 26 - Job No. 10-02 – Department of Transportation/Kiewit-Kaumualii Highway Widening, Vicinity of Anonui Road to Vicinity of Lihue Mill Bridge, F.A.P. No. NH-050-1(31), seconded by Mr. Nishimura.

Mr. Nishimura stated that the DOW has spent over $5 Million to upgrade the water lines, half a million for intersections. This is a long term project, but these numbers keep adding up.

Mrs. Yano stated that the $4.77M and the $70,000 would come out of the $150,313 from the BAB funds. Deputy County Attorney Andrea Suzuki stated that Board Approval is not required for this change order because the amount requested is already included in the approved budget.

Mr. Nakaya moved to withdraw his current motion and Mr. Nishimura moved to withdraw
his second.

Mr. Nishimura moved to receive Manager’s Report No. 12 – 26 - Job No. 10-02 – Department of Transportation/Kiewit-Kaumualii Highway Widening, Vicinity of Anonui Road to Vicinity of Lihue Mill Bridge, F.A.P. No. NH-050-1(31), seconded by Mr. Nakaya; by a unanimous vote; motion was carried.

The State DOH Safe Drinking Water Branch head, Joanna Seto, said that the grant funds would be spent down first, then the loan funds would be spent down in the case when not all the funds are used or a decision is made before completion of the EIS to cancel the balance of the EIS for the Kahili Mountain High Level Exploratory Well.
