- B. Planning and design for the drilling and testing of water wells.
- C. Planning and design for the construction of water tanks and connecting pipelines.
- D. Planning and design for the construction of water transmission and distribution mains.
- E. Planning and design for surface water treatment facilities, vehicle and foot access bridges, land and site acquisition, drainage, and water quality.
- F. Planning and design, and/or outfitting of water facilities with new or renovated deep well production-pumps, booster pumps, water tank electrical controls, Supervisory Control And Data Acquisition (SCADA), Motor Control Center (MCC), instrumentation and piping, and power savings (power generation).
- G. Planning, design and construction management for waterworks facilities including, but not limited to: site improvements, structures, landscaping, fencing and pavement, standby power systems, generator shelters, access roads, retaining walls.
- H. Preliminary Engineering Report (as needed) for Inspection, repair, recoating, renovating and replacement of buildings, waterworks facilities (deep well sites, tunnel sources, tanks, pump stations, pipelines and controls), and development of maintenance management programs for fixed facilities (valves, fire hydrants, pump station etc.) and mobile equipment.
- I. Design, installation, inspection, and repair of corrosion control-systems.
- J. Water meter analysis, repair and testing services.
- K. Assistance with land acquisition, including, but not limited to: land appraisal for various sites, assistance with obtaining Grant of Easement, Right of Entry, or various other legal agreements necessary to complete a project. If required, the appraiser will be required to retain a land surveyor.
- L. General surveying services.
- M. Structural Engineering Inspection for construction of water facilities.
- N. As-Needed Engineering Services for Indefinite Quantity Indefinite Delivery. The primary intent of this solicitation is to provide professional engineering services to:
 1. Augment the Department's engineering staff
 2. Re-certify previously completed construction drawings
 3. Provide professional engineering services during construction to respond to change orders, requests for information, construction bidding, etc.
 4. Provide civil, electrical, and mechanical engineering services
 5. Provide training for Department's engineering staff

Expression of interest shall include:

1. Category number and title; (for example: Fiscal-F- Accounting consultation services.)
2. Name of the contact to which the resume(s) is/are to be directed.
3. Signature of an authorized representative.

The following requirements pertain to all Statement of Qualifications (SOQ's) submitted. SOQ's should identify the area(s) of professional services provided by the proposer, and include a description of the proposer's firm, the qualifications and related experiences of the principals and staff members, and supporting data and information as they relate to the proposed subject-matter areas. Use of Federal Form SF 330 or State Form DPW 120 with supplemental information, where appropriate, is encouraged. SOQ's should include, but not be limited to, the following information:

- A. The name of the firm or person, the principal place of business, and location of all of its offices;
- B. The age of the firm and its average number of employees for the past five years;
- C. The education, training, and qualifications of key members of the firm;
- D. The education, training, and qualifications of key members of the associate firms for subcontracted work;
- E. The names and phone numbers of up to five clients who may be contacted, including at least two for whom services have been rendered during the preceding year;
- F. Any promotional or descriptive literature which the firm desires to submit, and
- G. Submit Quality Assurance Procedures (this item is important and submittals will be rejected without it).
- H. **For ENGINEERING category:** The entire SOQ package shall not exceed 15 pages, using a minimum size of 12 font. Examples of projects, performed by the firm, which best illustrate the firm's ability to complete contracts within the category of interest. A minimum of 2 example projects must have been done within the past 10 years.

Multiple awards under this solicitation may occur, based on the needs of the DOW, according to the relevant matter for which an offer is sought. The use of multiple awards based on this solicitation is voluntary.

For each SOQ, based on the needs of the DOW, a cooperative purchase agreement may be used. If a cooperative purchase agreement is used, the agencies shall enter into a cooperative purchase agreement pursuant to relevant law.

The furnishing of consultant services shall comply with the General Terms and Conditions for Professional Services Contracts, dated January 1, 2019. A copy of the document can be found at www.kauaiwater.org.

Expressions of interest, SOQ's, and accompanying information must be received by the DOW addressed to the Manager & Chief Engineer, Department of Water, County of Kaua'i. All submittals must be received in **ELECTRONIC FORM ONLY** via www.publicpurchase.com no later than 4:30 p.m. (HST), **Tuesday, June 30, 2020**.

Awards shall be electronically posted on the DOW website within seven (7) days of the contract award.

Questions may be directed to Ms. Christine Ererita at (808) 245-5409.
