G. OLD BUSINESS

1. Manager's Report No. 20-41 - Waiahi Surface Water Treatment Plant Renovation Construction Costs (Update)

BACKGROUND:
Civil Engineer Mr. Bryan Wienand mentioned that the membranes were invoiced up to the 90% which the Board approved $638,000 in February. On June 25th, the Department received notification from Kodani & Associates that all four of the membranes have been completed. An invoice would be received before the July Board meeting. (Refer to totals Page 35.)

DISCUSSION:
Mr. Dill wanted to make sure the Department inspects the membrane work. Chief of Construction Management Mr. Dustin Moises commented that there were no plans for this portion and inspection. He said Mr. Bill Eddy of Kodani & Associations have been overseeing the construction. The actual expansion would have approved plans then Construction Management (CM) would inspect periodically. Mr. Dill suggested the Department coordinate a quick inspection of the SWTP installed membranes. Mr. Wienand agreed to provide the following: an update at the July Board meeting, the water quality stats after membranes are installed before completion and final payment. The work will be completed this week.

2. Manager's Report No. 20-54 - Discussion and Possible Action to Approve the Proposed Operating and Capital Budget for Fiscal Year 2021 (Update)

Updated Summary of Changes were presented (Page 228):
- Estimated Available Resources – are the estimated cash receivables at the end of June 30, 2020; decreased by $1.6M.
- Professional Services budget – changes were made to increase Water Resources & Planning by $150,000 and Admin. increased to $120,000 for a possible Board Advisor. Engineering Services (not shown) did not need to increase this budget by $100,000.
- Salaries and Wages – All vacant positions over one year is dollar funded with a new decrease of $758,000 & Benefits New Capital Outlay - Lihu'e Baseyard Masterplan $1,080,000 was deducted

Net Change - Estimate Ending Balance = ($30,383.00)

Fund Balance Projections (Page 47) – as of June 30, 2021, the Water Utility general fund = $6.5M.
Water Utility (WU) Reserve & WU Debt Reserve – show zero because Reserve Fund Board Policy No. 31 was approved at the May Board meeting which is not consolidated WU Reserve Fund = $9.3M

DISCUSSION:
Mr. Dill asked why was there a decrease of $1.6M on the Estimated Available Resources attributed to? Mrs. Yano explained that the estimated change in the fund balance as of July 1, 2020 due to the change in the estimated cash investments receivable and balances of $50M and encumbrances of $16M. This was a comparison from the fund balance projections of last month. Encumbrances are $15.7M and was updated to $16.5M. Beginning balance $50.4M; last month was $50.8M. Current liabilities changed since the last Board meeting at $4.1M; up $4.5M this month.

Mr. Calipio asked how did the current liabilities add up to $400,000? The current liabilities consisted of the accounts payable, contracts payable, customer overpayments, customer deposits and advances which are equal to $4M (updated as of May 31, 2020). Payables are vendors, contracts payables, vacation and comp time accrued for staff. The Short Term Debt Principal payment of $5M was not included but shown on a separate sheet.

BACKGROUND:
